How much can you earn with a FREE Magic Mirror on 35% Profit Share?

Based on just 50 to 100 photos taken throughout the whole day.

50 x £4 x 100 events Per Annum = £7,000	70 x £4 x 100 events Per Annum = £9,800
50 x £4 x 150 events Per Annum = £10,500.	80 x £4 x 150 events Per Annum = £16,800
50 x £4 x 200 events Per Annum = £14,000	100 x £4 x 200 events Per Annum = £28,000

Note: Above figures are a guide only. For a conservative calculation for your venue: Estimate the average number of photos likely to be taken per event based on 1/3 the average number of guest's x £4 x number of bookings per year x 35% = Approximate Annual Revenue.
